ANCIENT TORTURE

How it has Been Revived in Modern Times.

An ancient method of poisoning criminals was to force them to swallow large quantities of bull's blood. Bull's blood is really no poison at all. Yet the prisoner usually died in agony. This was caused by the coagulation or hardening of the bull's blood in the stomach. The pressure of this solid mass on the heart, lungs and other vital organs almost always resulted fatally.

That's just like indigestion. If your food doesn't digest it remains in a hard lump in the stomach. Gases are formed, which crowd and sometimes actually displace other organs. Many cases of supposed heart disease are due to indigestion. The pressure upon the lungs interferes with breathing. A disordered stomach effects the whole body. By the use of such a preparation as Kodol Dyspepsia Cure all this trouble is removed. Before food can be assimilated into the system it must be reduced to proper condition by the digestive fluids. If any of these fluids are lacking, perfect digestion is impossible. Kodol Dyspepsia Cure supplies the missing fluids. Stomach troubles can't be cured by dieting. The system demands both a sufficiency and a variety of food. You can't get well or stay well without it. Kodol Dyspepsia Cure enables the stomach to take care of any kind of good food. It renders dieting unnecessary. It digests what you eat. In this way it rests the stomach. This rest soon restores the stomach to perfect health. Kodol Dyspepsia Cure helps the children too. Weak and sickly little ones thrive on it. It never fails.

"During the last few years my stomach was in such condition that I couldn't retain the food I ate," writes Henry Williams of Boonville, Mo. "Two months ago I commenced taking Kodol Dyspepsia Cure. A few bottles have cured me entirely. I can now eat and enjoy anything I want."

MR. MOODY TALKS

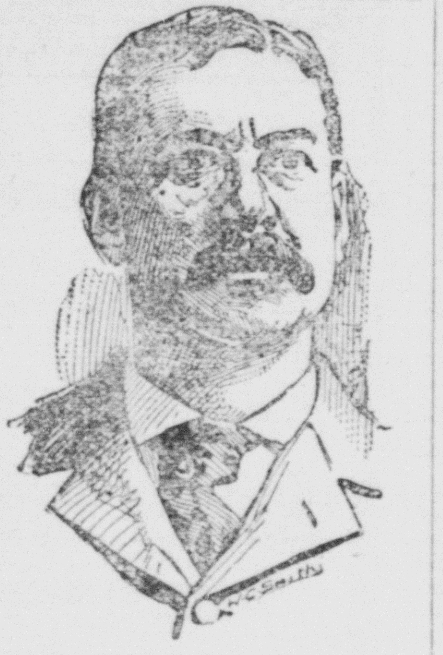
Some Inside Facts Regarding President's Stand In Strike Matter.

HE WAS NOT A COWARD

Secretary of the Navy Gives a Convincing Reply to a Massachusetts Blatherskite.

Charge That President Was Afraid to Act In the Matter Definitely Answered.

Haverhill, Mass., Nov. 4.—As his closing speech in the campaign, Secretary of the Navy Moody last night devoted attention to President Roosevelt's settlement of the coal strike, a subject, he said, he had avoided while on the stump. Mr. Moody explained that he touched upon it at this time simply as a reply to attacks made upon the president by Representative James F. Carey of this city, a Socialist, who during political speeches had said that President Roosevelt was a coward and was afraid to act in bringing the strike to an end.



SECRETARY MOODY.

"The president," Mr. Moody said, "asked the advice of the members of the cabinet when the situation was gravest, and he was advised to appeal to both sides for a settlement of the strike. Everyone knows how the coal operators received the proposition with ill-concealed contempt; how President Mitchell was willing to arbitrate; and how the coal operators were finally forced to accede to the popular demand."

President Roosevelt, Mr. Moody declared, proved himself anything but a coward. Many people wanted the president to send federal troops to the coal region, but this the president refused to do, stating that until the executive of the state appealed for aid he could not do so. "I dread the day," said Mr. Moody, "and shall never see it if I can help it, when labor shall be obliged to work beneath the shadow of federal bayonets."

He continued by saying that the people wanted the president to seize the mines, but this would be unconstitutional, as no money could have been used to run the mines by him or anyone else without appropriation by congress. This stand, said Mr. Moody, showed the president's sound judgment.

Trapped Outlaws.

Guthrie, O. T., Nov. 4.—Bert Casey, an outlaw, and Jim Sims, one of his lieutenants, trapped by two deputy sheriffs in a rendezvous near Glen Springs in Woods county, yesterday were shot and killed. They put up a strong fight, firing several volleys, but none of the deputies was hit. Two deputies in disguise had secured the confidence of the outlaws, and, being with them at the time, gave the signal to their fellow-officers that started the fight. Casey and Sims were planning the release of George Moran, another of their number, now on trial at Lawton for murder.

Scene of Beauty.

Kansas City, Nov. 4.—Convention hall has been transformed into a scene of bewildering beauty, great numbers of rare blossoms and plants being on exhibition at this, the third annual flower show. Some of the most noted growers in the country from New York, Pennsylvania, Maryland, Indiana, Illinois and Michigan have exhibits here competing for the heavy cash prizes hung up.

Bootlegger Taken.

Springfield, Ill., Nov. 4.—William Smith, wanted in Kentucky on a charge of "bootlegging," and who is said to have almost killed a federal officer who attempted to arrest him and George Gray, came into this city last night and gave himself up to the federal authorities and was lodged in jail.

Fooled the Doukhobors.

Winnipeg, Man., Nov. 4.—There is a heavy snowfall throughout Manitoba, the first of the season. This will probably solve the Doukhobor problem, as the marching fanatics have predicted all along that sunny and bright weather would prevail until they reached Winnipeg.

WAITING FOR RETURNS

Scenes About the State Committee Rooms Today.

Indianapolis, Nov. 4.—The state committee rooms presented a rather desolate appearance up to noon, as the officials were not in. Neither were the clerks and stenographers at their desks as usual. Every man who could get out a few votes was working in his precinct. It really looked at the headquarters as if a circus had broke ground after a one day's stand, as papers were scattered in confusion over the floor and the rooms had an all-around tired-out appearance. But this afternoon Chairman O'Brien and Secretary Reiley returned to the Democratic rooms and Chairman Goodrich and Secretary Whittaker to their old places in the Republican quarters. They had many telephone calls from throughout the state this afternoon as to how matters were going, but it was impossible to tell. A large force of telephone and telegraph linemen have been busy around the headquarters all the afternoon getting ready for the returns tonight. Some of the candidates on the state ticket are here to learn their fate, and they all look as if they are tired of the anxious seat. It will probably be pretty definitely known by midnight just how the tide has gone.

The prospect of the prettiest sort of fight in the legislature between the saloon and anti-saloon people is interesting, even at this distance. The antis have given evidence for some time that they are strictly business, but the brewers have consoled themselves with the fancy that only saloons are to be molested. As long as the druggists and grocers are permitted to sell the brewers had nothing much to fear, as the extermination of a few hundred saloons would not necessarily lessen the consumption of beer. But the antis have appointed a legislative committee and they now propose to close up the drug and grocery stores that are selling in defiance of the law. It is not to be expected, however, that they will be permitted to have easy sailing in the legislature, and it is probable that the liquor interests will organize more closely at once.

The finish of the campaign here was of the most sensational order. The Democrats and Republicans alike seemed to be inspired with fresh confidence, and there was a prospect of a large vote being polled. Both sides have been working day and night for the last week. The preparations for getting out the vote here required the outlay of day and night labor of a large force for a week and a large sum of money. Each side must have had two or three thousand carriages. It is believed that more money than was usual for an off year was spent, as there was hard, bitter fights for several places on the ticket. The Democrats had strong hopes of getting at least two or three of the offices, but the indications were this afternoon that the Republicans had won all along the line, but at reduced pluralities.

A laughable situation confronted the party managers in one precinct of the First ward of Indianapolis today. In one house there were nearly twenty voters, yet not a man of them could go to the polls. Late yesterday afternoon it was learned that one of the number was infected with smallpox, and lo and behold! before the vigilant party workers knew a thing was up the health officers had the house quarantined, so that no one could leave. The importuning of the party managers was useless, so the houseful of men could do nothing more than to watch their more fortunate brothers as they were going to the polls to exercise their right of suffrage.

There was less betting than usual. Last night there were many around the bulletin boards, but they were not placing much money. Too great odds were demanded of the Republicans. Most of the betting was on pluralities and "catch" bets. Considerable money was posted on New York and other states, but most of the betting here was on two or three places on the county tickets.

Under Advisement.

St. Louis, Nov. 4.—Judge Ryan yesterday afternoon heard arguments for a new trial in the case of Robert M. Snyder, the banker and promoter, who was recently convicted of bribery and given five years' imprisonment in the penitentiary. At the conclusion of the arguments Judge Ryan took the motion under advisement, and will hand down a decision the latter part of the week.

Fatal Wreck.

Meyersdale, Pa., Nov. 4.—In a collision last night on the Baltimore & Ohio between a fast freight west and two helper engines, Engineer Clifton D. Curtis of Meyersdale and Fireman N. Nicholson were killed. Engineer George D. Ingram of Connellsville was probably fatally hurt. Traffic was blocked for several hours.

Killed for Trivial Cause.

English, Ind., Nov. 4.—Dan Gilmore, while returning from church at Eckerty, ten miles west of this place, shot and killed Charles Hammond. They quarreled over throwing corn at each other. Hammond drew a knife and Gilmore shot him in the nose. He died a few hours later.

Ready to Sail.

Norfolk, Va., Nov. 4.—The flag was raised over the battleship Texas yesterday afternoon and she is ready for sea. The Texas will sail for Southern waters.

CUBAN CONGRESS

President Palma's Message Is Charged With Buoyant Optimism.

THE ISLAND'S FUTURE

New Republic Starting Out In a Way Very Satisfactory to Its Executive Head.

The State of the Treasury Is Extremely Encouraging—Sympathy of America.

Havana, Nov. 4.—The Cuban congress, which adjourned Oct. 20, reconvened yesterday. President Palma, in his message to congress, takes an optimistic view of the future of the republic. He refers to the remarkably good order that has been preserved throughout the island, which he says is proof of the peaceful nature of the Cuban people. The president says also that the sanitary condition of Cuba is today even better than it was during the period of American intervention.

"Our relations with the United States," continues the message, "are especially cordial; proof of this is found in the negotiations between Cuba and the United States for a commercial treaty on a basis of mutual tariff concessions. The special object of this treaty is to obtain positive advantages for our products, particularly sugar, which is the principal basis of Cuban wealth.

"It can be hoped, from the sympathy with which the American people regard us, and from the manifest interest which President Roosevelt entertains in the prosperity of Cuba, that a reasonable arrangement by means of this treaty can be arrived at.

"The state of the treasury is extremely encouraging. The balance on hand is $1,561,942. This condition gives reason to hope that by the honest administration of the public revenue there will be sufficient funds to give important encouragement to agricultural pursuits in all the provinces of the island."

President Palma makes mention of the foreign nations which have recognized the Cuban republic. His only reference to the Platt amendment was contained in a statement to the effect that he had made ample appropriation to carry on sanitation as provided for in the amendment.

BROKE INTO JAIL

Laura Biggar's Experience With New Jersey Sheriff.

Freehold, N. J., Nov. 4.—Miss Laura Biggar, for whom a warrant was issued for attempt at fraud in connection with the will of the late Millionaire Henry M. Bennett, experienced much difficulty in gaining admission to the county jail when she appeared at the sheriff's office yesterday and announced that she desired to surrender herself. The difficulty arose over the fact that the warrant was in the hands of a constable at Asbury Park, and the sheriff declined the responsibility of locking up the would-be prisoner until the document had been formally served on her.

Miss Biggar, finding the sheriff obdurate, insisted on waiting in the witness room of the jail until the constable arrived with the warrant when, the sheriff's scruples having been removed, he consented to receive Miss Biggar as a prisoner. Counsel for Miss Biggar said that since the accusation was laid against her she had been living in New York. She would not, he said, accept bail so long as it was not forthcoming for Hendricks and Stanton. It is understood that no indictment has yet been found against Miss Biggar.

Both Sides Claim.

Chicago, Nov. 4.—The Republicans claim that in today's state election they will have nineteen out of twenty-five congressmen, and more than enough members of the state legislature to elect the next United States senator who is to succeed Senator William E. Mason. The Democrats claim that they will have a few more than a majority of the legislature on joint ballot, while the Republicans assert that there is no doubt whatever of their ability to control the state assembly by a majority of at least a dozen or fifteen votes.

Jack the Slugger.

Boston, Nov. 4.—State Officer Geo. H. Dunham today arrested a man whom he believes he will be able to prove is "Jack the Slugger" and the slayer of Clara Morton, murdered in the McLean asylum grounds, Waverly, Saturday night. The police declare they are able to prove that the suspect was seen and recognized by five persons in and about the McLean grounds Saturday night. Furthermore, he was seen near where the murdered girl's chatelaine bag was found.

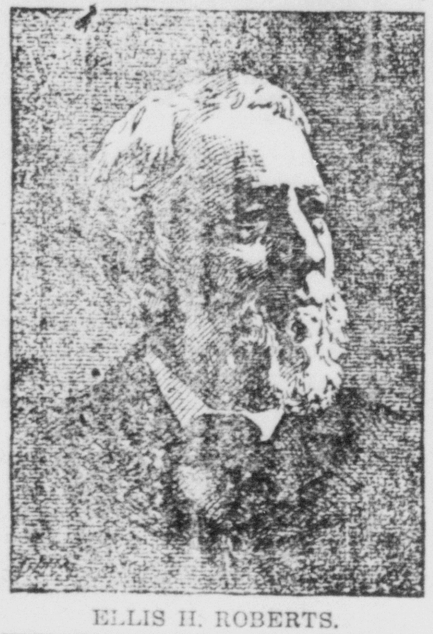
Croker's Trial.

New York, Nov. 4.—The trial of Chief Edward F. Croker of the fire department on various charges was ended yesterday. A motion to dismiss the charges was denied by the fire commissioner, and he announced he would reserve his decision.

STRIKING FEATURES

Contained In Annual Report of the United States Treasurer.

Washington, Nov. 4.—Ellis H. Roberts, treasurer of the United States in opening his annual report, says that the magnitude of the available cash balance and the unprecedented holdings of gross gold, are the striking feature of the condition of the treasury at the close of the fiscal year 1902. The net ordinary revenues for the year were $562,478,233, and the expenditures $471,190,857, showing a surplus of $91,287,376. In comparison with the previous year there was a decrease of $25,207,104 in the revenues, offset by a falling off of $38,776,495 in the expenditures.



ELLIS H. ROBERTS.

Cause of Dismissal.

St. Petersburg, Nov. 4.—The dismissal from the Russian army of the Grand Duke Paul Alexandrovitch, uncle of the czar, which was officially announced Sunday, was due to his recent marriage to the Baroness Pistolkoff, with whom he has been acquainted for the past three years and who got a divorce from her husband in order to marry the grand duke. It is said that the grand duke has also been banished from the Russian court for ten years. He will settle at Cannes, France.

Change of Venue.

St. Louis, Nov. 4.—The case of Col. Edward Butler, millionaire politician convicted on a charge of bribery in connection with the city lighting legislation, was sent yesterday to Fulton for trial on a change of venue. There the case will come up before Judge Hockaday, before whom Butler's trial for alleged attempts at bribery is pending at Columbia. No date for the trial was set.

Looks Like Odell.

New York, Nov. 4.—Even during the progress of the final struggle today, the leaders of both the great parties are still claiming large and in many instances increased pluralities for their respective candidates. Despite the enormous divergence of estimates, there was at the last moment practically no change in the betting, the odds remaining at 2 to 1 on Odell.

STATE NEWS NOTES

Incidents and Accidents and Doings of Note Throughout Hoosierdom.

MADE THEM GIVE UP

Two Masked Burglars at Terre Haute Perpetrate a Daring Diamond Robbery.

Mr. and Mrs. Samuel Prager Compelled to Give Up Valuables at Pistol's Point.

Terre Haute, Ind., Nov. 4.—Samuel Prager, a jeweler, has reported to the police that his home was robbed of $700 worth of diamonds and jewelry.

Prager was awakened by a peculiar noise in the house and upon calling who is there he was blinded by an electric lantern flashed in his face. Two burglars had entered the house by forcing a rear door, and while one of them covered Prager with two revolvers the other ransacked the room. They both wore black handkerchiefs across their faces. One of them noticed diamonds set in the ear-drops worn by Mrs. Prager and he leaned over her husband while unfastening one of them. He then compelled Mrs. Prager to surrender the other one. Rings were taken from the fingers of Mrs. Prager's hand and the solitaire was removed from her husband's finger. As soon as the burglars left a telephone message was sent to police headquarters, but the burglars had made good their escape.

A CLOSE CALL

Logansport Traveling Man's Experience With Robbers.

Logansport, Ind., Nov. 4.—B. E. Trick, a salesman traveling from here, was sandbagged and robbed of $190 at White Pigeon, Mich. He was waiting for a train to return home, when he walked to a water tank near the station, where he was knocked down and dragged some distance. The robbers put out the switchlights and left him unconscious on the track. He regained his senses as the headlight of the train flashed in his face and rolled off the track.

Criminal Curiosity.

Indianapolis, Nov. 4.—Dr. Clarence Kincaid, a young physician living at Taylorsville, Ind., surrendered himself to the police yesterday. He is charged with being implicated with the graverobbers. Charles F. Riggs, a druggist at 926 North Alabama street, was also arrested on the same charge. They are about twenty-one years old. The young men are worried. They admit being on one of the trips of the ghouls to rob a grave, but say they went merely out of curiosity and for the adventure. It is said there are many young medical students in the city who have been out on graverobbing expeditions.

A Roadside Accident

South Bend, Ind., Nov. 4.—While Mrs. D. J. Ornor with others of a funeral party was on her way home from Auburn with the body of a son, their vehicle was struck by an automobile running at high speed. The vehicle was overturned and the occupants thrown out. Mrs. Ornor's arm was broken and she received other injuries.

Missing Bridegroom.

Goshen, Ind., Nov. 4.—Frederick Weiss, aged forty-five, has disappeared within a few days of the date set for his wedding to Miss Anna Prang, who had purchased her wedding clothes. The prospective bridegroom had purchased his wedding suit.

Mysteriously Absent.

Mishawaka, Ind., Nov. 4.—Rosa Tompkins, aged sixteen, disappeared five days ago, saying she was going to a neighboring farm. She has not been seen since. Her brother disappeared six years ago, when he was sixteen years old.

Medics Will Meet.

Evansville, Ind., Nov. 4.—Between 300 and 400 physicians from Indiana, Ohio and Kentucky are expected to attend the annual convention of the Ohio Valley Medical association, which will be in session here Thursday and Friday.

Hunter Killed.

Newcastle, Ind., Nov. 4.—Henry Bousloe of Sulphur Springs was accidentally killed by the discharge of his gun while hunting. The charge entered his throat and severed the windpipe and jugular vein.

Will Go to Pen.

Vincennes, Ind., Nov. 4.—Charles Wilson, giving Winchester as his home, pleaded guilty to robbing a Baltimore & Ohio Southwestern boxcar yesterday and was given two years in the penitentiary.

Baby Fatally Dosed.

Washington, Ind., Nov. 4.—While the children of A. G. Williams were at play a five-year-old daughter gave carbolic acid to the one-year-old baby. The infant will die.

Killed By Train.

Brazil, Ind., Nov. 4.—Robert Field, a driver for a coal mine, was struck by a Big Four train and instantly killed.

LOOKING INTO IT

Miners' Strike Commission Continues Busy.

Hazelton, Pa., Nov. 4.—The anthracite strike commission spent the entire day in the Lehigh valley region, visiting one mine and several of the mining villages. While most of the commissioners were looking over the territory, Recorder Wright was kept busy on the train attending to the correspondence of the commission. Among the matters to be disposed of was the sending of a copy of President Mitchell's statement of the miners' case, which was filed with the commission on Sunday night before its departure from Scranton for this region, to all the coal companies involved in the district. The statement was mailed from this city, and should be in the hands of the companies today. Under the agreement made before the commission at Washington the operators will make a reply in three or four days.

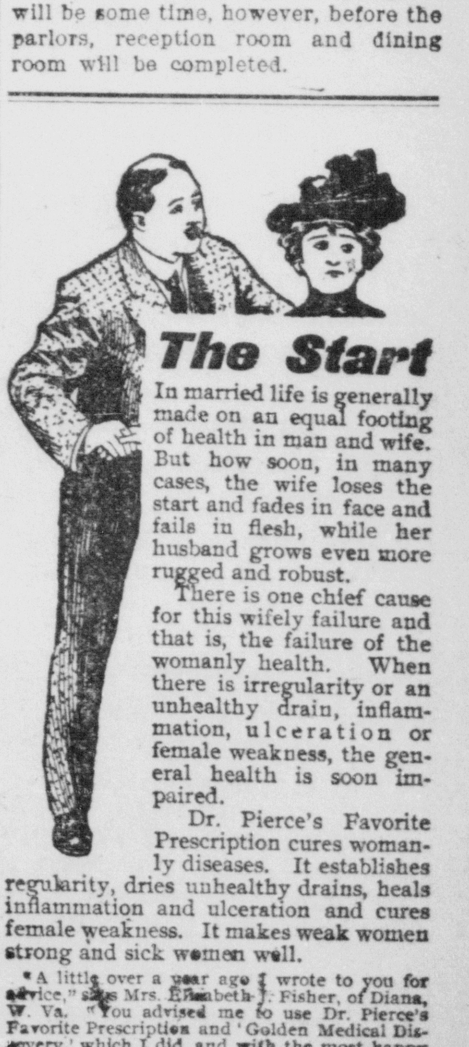
The trip of the commission through this region was an interesting one, the conditions of mining being somewhat different from those existing in the Lackawanna and Wyoming valleys. At nearly every station a small crowd was gathered to get a glimpse of the members of the commission. The commissioners left for Shamokin this morning, and Wednesday will find the members in the Panther Creek valley. On Thursday the arbitrators will visit the region around Pottsville, and that night the commission will adjourn until Nov. 14.

Coal Movement.

Wilkesbarre, Pa., Nov. 4.—Although the various coal companies are not prepared to give figures, it is known that the output of coal in the anthracite region yesterday was larger than any day since the collieries resumed operations, eleven days ago. The volume of coal going to other than home markets is also larger. Last week local dealers in the coal towns would not accept orders for immediate delivery. Orders were booked three and four days ahead. Now the home consumers of hard coal are pretty well supplied and this allows a heavier tonnage to go to other markets.

New Executive Offices.

Washington, Nov. 4.—The office furniture of the White House was yesterday removed from the Jackson place residence to the new executive offices adjoining the White House. The offices will be ready for the president upon his return from Oyster Bay. The living rooms in the remodeled White House also will be ready for occupancy when the president and Mrs. Roosevelt arrive on Thursday. It will be some time, however, before the parlors, reception room and dining room will be completed.



The Start

In married life is generally made on an equal footing of health in man and wife. But how soon, in many cases, the wife loses the start and fades in face and fails in flesh, while her husband grows even more rugged and robust.

There is one chief cause for this wifely failure and that is, the failure of the womanly health. When there is irregularity or an unhealthy drain, inflammation, ulceration or female weakness, the general health is soon impaired.

Dr. Pierce's Favorite Prescription cures womanly diseases. It establishes regularity, dries unhealthy drains, heals inflammation and ulceration and cures female weakness. It makes weak women strong and sick women well.

"A little over a year ago I wrote to you for advice," says Mrs. Elizabeth J. Fisher, of Diana, W. Va. "You advised me to use Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery,' which I did, and with the most happy result. I was troubled with female weakness and bearing-down pains. Had a very bad pain nearly all the time in my left side, nervousness and headache. Was so weak I could hardly walk across my room. Could not sit up only just a little while at a time. My husband got me some of Dr. Pierce's medicine and I began its use. Before I had taken two bottles I was able to help do my work. I used three bottles in all and it cured me. Now I do all my housework. It is the best medicine I ever used."

4th District—JOS. H. HODAPP.

Thanksgiving Day, Rates.

On November 26 and 27, 1902, the Southern Indiana railway will sell tickets at one and one-third fare for the round trip, within a distance of 150 miles from starting point. Tickets good returning Nov. 28, 1902.

WILL BE A LIGHT VOTE.

Election Day Passing off Very Quietly.

The polls throughout Indiana opened at six o'clock this morning and will close at six o'clock this evening. The day has been very pleasant and many voters ceased working only long enough to go to the polls and exercise their right of suffrage. So far as reported everything has passed off quietly in Jackson county. The indications point to a light vote.

In Jackson township the vote has been coming out rather slowly all day and probably not more than eighty per cent. of the total vote in the township will be polled.

A representative of the REPUBLICAN made the rounds of the polling places between 2:30 and four o'clock this afternoon and found the vote polled at each precinct at that hour as follows:

1st precinct,	110	votes polled.
2nd "	108	" "
3d "	106	" "
4th "	117	" "
5th "	116	" "
6th "	125	" "
7th "	120	" "
8th "	126	" "
9th "	134	" "
10th "	142	" "

Total vote cast at the hour named above was 1204.

The total number of voters in the township as shown by the poll books is 1927. This leaves 723 votes that were still out at the time we made the rounds of the polling place. These figures indicate that the vote may be 400 short in Jackson township when the polls close at 6 o'clock.

Election returns will be received at the REPUBLICAN office tonight.

Good Advice.

During school days parents should be very careful how they speak of teachers before their children. If there is any fault to be found with the teacher by parents, it should be talked in private and not in the hearing of children. They are wonderful imitators, and if they hear anything of the kind they will very naturally do the same, many times injuring both teacher and pupils, but the pupils most teachers, as a rule, are competent or they would not be employed. They've got a great responsibility on their shoulders, and parents should do all in their power to help them instead of hinder. It would be well to weigh this subject carefully and to co-operate with the teacher and pupils in their work. The result would be better work and progress.—Ex.

Runaway Horse.

The delivery horse for J. H. Hodapp's feed store ran away this afternoon. It took fright at the switch engine, ran up St. Louis avenue striking a box car with the wagon, tearing itself loose In attempting to turn down Chestnut street the horse slipped and fell and run its head through the woodwork under Kisselman's show window, but did not injure the plate glass. The horse was not hurt beyond some scratches and bruises.

Charge Storage on Baggage.

Beginning the first of the year, the railroad agents of the country will not be permitted to store baggage in their offices without making a charge for it. The practice for years has been that when a representative of a road arrived at a station and had to stop in town a short time, he would leave his handbag with the agent. A printed circular sent out tells that the agent must make a charge of 10 cents a day, and not keep it too many days, for all baggage that is left in his office.

Startling, But True.

"If every one knew what a grand medicine Dr. King's New Life Pills is," writes D. H. Turner, Depseytown, Pa., "you'd sell all you have in a day. Two weeks' use has made a new man of me." Infallible for constipation, stomach and liver troubles. 25c. at W. F. Peter's drug store.

BOXING THE COMPASS.

The Test Between a Sailor and a Landlubber.

Boys who live in seaport towns are sometimes asked to "box the compass." If they can do it quickly and accurately, they are fine sailors and may grow up to be the captain of a four master. If they miss a point or can only do it slowly, they are landlubbers and will never see blue water. To box the compass means to name all the points in order just as fast as you can speak. This is the way an old down east skipper will rattle it off: North, nor' by east, nor'-nor'east, nor'east by north, northeast, nor'east by east, east-nor' east, east by north, east, east by south, east-sou'east, sou'east by east, sou'east, sou'east by south, sou'-sou'east, sou' by east, south, sou' by west, sou'-sou'west, sou'west by south, sou'west, sou'west by west, west-sou'west, west by south, west, west by north, west-nor'west, nor'west by west, nor'west, nor'west by north, nor'-nor'west, nor' by west, north.

Can you do it?

If a needle is drawn a few times over the ends of a horseshoe magnet, it becomes magnetized. Push such a magnetized needle through a small cork. Place the cork in a bowl of water, taking pains to see that the cork when it floats on the water will carry the needle in a horizontal position or "on an even keel." Another way is to cut about three inches from a hollow straw (such as is used to suck lemonade) and to push the needle inside the straw. The straw will float and carry the needle. Now observe what happens. The floating needle will slowly swing round till it points north and south. The straw will behave in the same way. Push it in any other direction, and the moment it is free it swings back again.

We do not know who first observed the fact that a floating magnetized needle will point to the north. Nor do we know precisely when or where some unknown inventor used this idea to make a compass. All we know is that the Chinese made and used compasses more than 2,000 years ago.

When men began, perhaps 10,000 years ago, to sail upon the water, they used marks upon the shore to guide them on their way. Long years after they observed that a certain star kept at all times the same place in the sky, and they used this pole star as a guide in steering their ships. Today a steamship starting down the Hudson river for Europe is guided by the pilot, and he uses the buoys, beacons and other guide marks to steer the ship down the bay. Off Sandy Hook he gives up the ship to the captain, who instructs the helmsman to steer northeast by east, east by north or whatever course he selects, and the helmsman, watching the compass, keeps the ship headed in that direction.—Dallas News.

COOKING HINTS.

Chocolate is greatly improved by adding a teaspoonful of strong coffee just before serving.

In adding flour to gravies, always use a flour dredger and there will be no lumps in the gravy.

Some housekeepers vary the flavor of potato salad by boiling the potatoes for it in stock, or, if it is more convenient, in the soup kettle.

In using sour milk the proportion for gingerbread, biscuits, cake or almost any dough or batter is one teaspoon of baking soda to two cups of sour milk.

If making a gelatin dessert on a hot or a wet day, add a little more gelatin than the recipe requires, half as much again if you wish to mold fruit into the jelly.

Eggs a la ranigote is made by boiling eggs three and a half minutes, roll in beaten egg and fine bread crumbs, fry in deep fat; when brown, drain on paper, garnish with parsley and serve with ranigote sauce.

To make a small shortcake take a pint of pastry flour, rub in lard the size of an egg, teaspoonful cream of tartar, half teaspoonful soda, salt, and mix with sweet milk. Bake in quick oven, split and butter and add fruit.

For the Use of the Right Hand.

The buttons on coats, etc., are placed on the right side and the shed of the hair in boys to the left evidently to suit manipulation by the right hand. The great philosopher Newton records that at first he confined his astronomical observations to his right eye, but afterward he managed to train his left. But there are persons who could not do this owing to the unequal strength of their eyes.—Chambers' Journal.

DR. JOHNSON was a great tea drinker. It used to be said of him that towards midnight, when he had finished his twentieth cup of tea, his conversation was irresistible, his logic unanswerable, he was at his greatest power. How many fluent talkers to-day owe their brilliancy to the invigoration of "original package" tea. If you want to know how clever you can be when you are at your best, try the experiment. Buy a pound of Chase & Sanborn's Package Tea in the original air-tight lead form. It is a native drink.

FIXED EXPENSES

Every retail merchant must have a store as well as a stock and pay rent or its equivalent. He must buy heat, light, service, transportation, postage—in fact, a host of things. He cannot get along without them. They are sometimes called the "fixed charges" of the business. But having all these expenses does not bring business.

The one thing needed is publicity—that people should know him and that he has something which they need or want.

If the expenses are 10 per cent without advertising, make them 12 or 14 per cent with advertising and double or quadruple the business.—Men's Outfitter.

A Thanksgiving Dinner.

Heavy eating is usually the first cause of indigestion. Repeated attacks inflame the mucous membranes lining the stomach, exposes the nerves of the stomach, producing a swelling after eating, heartburn, headache, sour risings and finally catarrh of the stomach. Kodol relieves the inflammation, protects the nerves and cures the catarrh. Kodol cures indigestion, all stomach troubles by cleansing and sweetening the glands of the stomach. In October.

On! to be an October boy again,
With a laugh and a boyish heart;
To be away to the old walnut trees,
With a friend and a wabbly cart.

Along the old road, with fallen leaves spread
Like a pavement of green and gold,
Walled in its sides, with an old time rail fence,
Half hid by the Golden Rod bold.

I wish I could stain my hands once again,
At the foot of some good walnut tree,
And on the way home could break a cart wheel;
And hear my boy friend laugh at me.

Could spread the nuts on a high roof to dry,
In the frost and October sun,
While ripened the fruits on persimmon trees,
Not to know how fast Life's sands run.

But old and watching the leaves as they fall,
With many years frosts on my brow,
In the glad October of life,
I'm gathering sweet memories now,

The Convention.

The Eleventh District convention of Christian churches was opened at 2 p. m. yesterday. The afternoon and evening were devoted to the C. E. session. Praise service for the afternoon meeting was led by Rev. Thos. Jones. A short talk on "Loyalty to Christ" was then made by the pastor, Jno. W. Moody. Then followed oral reports from Endeavor societies, the following societies responded: Tabernacle, Columbus, Brownstown, North Vernon, Westport and Seymour. B. L. Allen followed these reports with an appeal for State C. E. work, for which he secured pledges from the above named societies. Next on program was a paper on "Prayer and Bible Study" by Miss Martha Miller of Brownstown. This paper was followed with another on "Practical Committee Work" by Mrs. Jno. W. Moody.

After appointing a committee on nomination the convention adjourned to meet at the 7:30 session which was opened with praise service led by Mrs. H. A. Wingard of Brownstown. Then followed an open parliament on "Where Societies Should be Organized and Reorganized in this District" after which the address of the evening on "Seven Things for Which C. E. Stands" was given by B. L. Allen State Superintendent.

The Clock Can Be Stopped

But time goes on just the same. There's many a woman who is approaching that treacherous time known as the change of life who would be glad to turn the flight of time backward. She is face to face with the unknown, but in the twilight of that near future phantoms mow and gibber at her from the shadows. Will *she* become unloving and unlovable? Will *she* lose her reason? Must *she* in this crisis of life suffer without relief?

But other women who have passed through the same crisis and escaped its dangers point her to the way of safety.

"I am convinced that you have a valuable woman's remedy in your 'Favorite Prescription' and cannot say enough in its praise," writes Mrs. Maggie Davis, (Supervisor of Loyal Lady Lodges of Ontario), of St. Thomas, Ont. (Box 542). "It carried me through the change of life safely, a condition which I dreaded for years. The use of your 'Favorite Prescription' put an end to the headaches and dizziness which I had experienced off and on for years. I think every woman should know of the benefits derived from its use, as it would save much pain and suffering."

Dr. Pierce's Favorite Prescription is a remedy for the diseases peculiar to women. It is a purely vegetable preparation and cannot disagree with the weakest constitution. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness. It is the best preparative for motherhood and makes the baby's advent practically painless. It cures headache, backache, nervousness, sleeplessness, and other consequences of womanly disease. It carries women safely and happily through the change of life.

"Favorite Prescription" has the testimony of thousands of women to its complete cure of womanly diseases. Do not accept an unknown substitute in its place.

FREE. ***Dr. Pierce's Common Sense Medical Adviser containing more than a thousand large pages is sent FREE on receipt of stamps to pay expense of mailing ONLY. IN SEYMOUR.

Every Claim is Backed by Local Testimony.

If the reader wants stronger proof than the following statement and experience of a resident of Seymour what can it be?

Mr. Samuel Buhner of St. Louis avenue tobacconist says: Doan's Kidney pills cured me of kidney trouble which had caused much annoyance and suffering. I had lameness in my back especially acute when I brought any strain on the muscles of my loins and there was also a bladder difficulty. Learning of Doan's Kidney Pills sold at C. W. Milhous druggist I procured a box and almost at once obtained positive relief. I previously tried many other remedies but never found anything to equal Doan's Kidney Pills I can strongly recommend them to others."

For sale by all dealers. Price 50 cents. Foster & Milburn Co Buffalo N. Y., sole agents for the United States. Remember the name Doan's and take no other.

He Was "In the Soup."

"Mon ami," said the Marquis de Croisic the other day, "the hotel keeper's life is an unhappy one. If he does not look to the least little detail, the whole thing goes—what do you call it? Ah, yes, on the blink.

"Here is example of what I say. When I had the Logerot, there was once a dinner there at which Chauncey Depew was a guest. I told the chef to put in the menu some dish in honor of him, and I forgot to look at the menu before it went to the printer.

"What do you think that imbecile of a chef had done? There"—

And the marquis produced an old menu card on which among the "soupes" appeared the following:

"Puree de marrons a la Depew."

Hundreds of lives saved every year by having Dr. Thomas' Electric Oil in the house just when it is needed. Cures croup, heals burns, cuts, wounds of every sort.

Where It Didn't Count.

"Do you really think it paid to give Josh all this education?" asked Farmer Corntossel.

"Course I do," answered the fond mother. "It's wuth money to know better 'n to say 'crops are bad' instid o' 'crops is bad.'"

"Well, if you say so, I reckon it's all right. But I can't say as I see how it kin make any difference in the crops."—Washington Star.

A BRUTAL NEGRO

Finds Little Mercy At Hands of Alabama Mob.

Salem, Ala., Nov. 4.—Sam Harris, a negro, entered the home of George Meadows, a planter who lives six miles south of here, about 9 o'clock Monday morning during Mr. Meadows' absence, and with an ax struck his wife and eighteen-year-old daughter on the head, crushing Mrs. Meadows' skull and fracturing that of the daughter. Mrs. Meadows has never regained consciousness and will die. The negro was placed in custody and held till Miss Meadows had sufficiently recovered to identify him. This she did at 4 o'clock in the afternoon, and the negro was taken in charge by about 125 men and his body riddled with bullets. Harris denied his guilt until the first shot was fired, and then he acknowledged the crime. The condition of the house showed that robbery was the purpose of the crime.

President Voted Early.

Oyster Bay, L. I., Nov. 4.—President Roosevelt reached Oyster Bay last evening in order to cast his vote today. He was met with a surprise. About the station a thousand persons were gathered with a band; big bonfires blazed and fireworks were discharged. The president voted before noon today in the Fifth district.

A Determined Woman.

Minneapolis, Nov. 4.—May Smith, after shooting Roy Williams, who she alleges had failed to keep his promise of marriage, held at bay a score of pursuers by firing a revolver at them. The woman was afterward arrested by policemen and expressed regret that she had not killed Williams.

Rev. George Wilson.

Bloomington, Ill., Nov. 4.—Rev. Geo. Wilson, a widely known Presbyterian and author, died yesterday, aged eighty-five. He attracted much attention before and during the civil war as a lecturer against slavery.

Henry M. Flagler has had built in his home, at Palm Beach, Fla., the largest pipe organ ever placed in a private house in this country.

A negro who killed Mrs. Medoaws and fatally injured her daughter for purposes of robbery at Salem, Ala., was hung by a mob and his body riddled with bullets.

Dynamite was placed under the house occupied by a man named Samuel Dominick at Pittston, Ba., and exploded. The inmates of the house escaped injury but were badly scared.

Jumped on a Ten Penny Nail.

The little daughter of Mr. J. N. Powell jumped on an inverted rake made of ten penny nails, and thrust one nail entirely through her foot and a second half way through. Chamberlain's Pain Balm was promptly applied and five minutes later the pain had disappeared and no more suffering was experienced. In three days the child was wearing her shoe as usual and with absolutely no discomfort. Mr. Powell is a well known merchant of Forkland Va. Pain Balm is an antiseptic and heals such injuries without maturation and in one-third the time required by the usual treatment.—For sale by C. W. Milhous.

Too Commonplace.

Little Jack—Oh, mother, I do love cake! It's awful nice.

Mother (reprovingly)—You should not say you "love" cake—say "like." Do not say "awful"—say "very." Do not say "nice"—say "good." And, by the way, the word "oh" should be omitted. Now, my dear, repeat the sentence correctly.

Jack—I like cake. It's very good.

Mother—That's better.

Jack (with an air of disgust) — It sounds as if I was only talking 'bout bread.—London Tit-Bits.

No matter how long you have had the cough; If it hasn't already developed into consumption, Dr. Wood's Norway Pine Syrup will cure it.

No Excuse.

A member of a volunteer fire brigade did not appear on the scene of the conflagration until after the fire was under control. He was severely taken to account by the chief for thus neglecting his duty.

"I could not help it," replied the fireman. "I live a long way from the fire."

"That's no excuse," snapped the chief "You must move nearer the next fire."—London Answers.

Father's Idea of Shoes.

"Spell shoes," said the teacher.

"S-h-o-e-s," returned the little one promptly.

"Correct," said the teacher. "Of course you know what they are."

The little one nodded his head violently.

"My papa says," he announced, "that shoes are what drive the father of a family into bankruptcy." — Chicago Post.

SWIMMERS' CRAMP.

It Is Not So Very Dangerous if the Victim Will Keep Cool.

If swimmers could be trained to keep cool under all circumstances, there would be comparatively little drowning among bathers and summer pleasure seekers. Cramp is usually assigned as the cause when some good swimmer drowns. But cramp ought in reality to be nothing serious. Usually is affects only an arm or a leg or maybe only a hand or foot. Any moderately good swimmer can keep afloat with one arm or even without the use of that, yet good swimmers drown often as a result of cramp. If such fatalities were analyzed, they would be more properly classed as drowning from fright and loss of nerve. This comes from the fact that every one is taught in childhood to fear the water and comes as a grown man and a swimmer to fear cramp. The average opinion is that the man who is attacked when swimming in deep water is as good as drowned. Therefore, when a swimmer feels a leg or arm begin to cramp he is frightened in most cases entirely out of his wits. He loses his head, begins to splash and paw and struggle and then goes down.

What the swimmer should remember is that he can keep afloat with very, very little effort if he will turn on his back and keep his chest inflated. It is the simple matter of floating, which every swimmer knows and finds very easy. If the swimmer will keep cool and float, the cramping limb will frequently relax after a little and he will find himself as well as ever.—Outing.

Seventh Century Needlework.

Before the end of the seventh century needlework was carried to great perfection in convents, where it was used for the embellishment of the church and the decoration of priestly robes. Artists did not think it beneath their dignity to trace the patterns used for embroidery in their natural colors. A certain religious lady, wishing to embroider a sacerdotal vestment, asked no less a personage than St. Dunstan, then a young man, but already noted for his artistic skill and taste, to draw the flowers and figures which she afterward worked in gold thread.

Simple Words.

There are a certain number of simple words in the English language that will express the greatest thoughts, and great men use them. To be incomprehensible may be a sign of knowledge It may also be the sign of an intellectual snob. The world is not moved by men and women who talk in an unknown tongue.—Schoolmaster.

Pay Your Debts.

"No, sir," declared Gazzan as he warmed up to his subject, "you'll never be happy so long as you are in debt Pay your debts, Swayback; pay your debts."

"But I have no money," said Swayback.

"Then borrow it."—Detroit Free Press.

Last winter an infant child of mine had croup in a violent form," says Elder John W. Rogers, a Christian Evangelist, of Filey, Mo. "I gave her a few doses of Chamberlain's Cough Remedy and in a short time all danger was past and the child recovered." This remedy not only cures croup, but when given as soon as the first symptoms appear, will prevent the attack. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. For sale by C W. Milhous.

Roguish Ravens.

The raven of southern Europe is a bold fellow—not unlike his cousin, the crow. Some notices of the bird, given by an English traveler in Corsica, offer amusing proof of this.

A youth whom I employed to carry my camera could never look on ravens with any equanimity, for he had suffered much from their thievish impudence when sent to the bush to gather firewood.

On one occasion he lost his dinner, a loaf of bread wrapped in a napkin, although he was working close to the spot where he had laid it and had turned his back for only a minute.

But the most unpardonable insult he had ever received happened on a day when he was out gathering wood. As he was stooping down to bind a bundle of fagots a raven suddenly swooped from behind, lifted the cap from his head and flew away with it to a lofty crag, from which she uttered croaks of triumph.

The cap was subsequently seen lined with straw and serving for a nest.

Hard on His Brethren.

"Oh, well, my dear," observed he to his wife, "you will find that there are a great many worse men in the world than I am."

"How can you be so cynical, John?" replied his wife reproachfully.—Syracuse Herald.

To the Public.

Allow me to say a few word in praise of Chamberlain's Cough Remedy. I had a very severe cough and cold and feared I would get pneumonia, but after taking the second dose of this medicine I felt better, three bottles of it cured my cold and the pains in my chest disappeared entirely. I am most respectfully yours for health, RALPH S. MEYERS, 64-Thirty-seventh St., Wheeling, W. Va. For sale by C. W. Milhous.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood.

If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root,** the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing **Dr. Kilmer** & Co., Binghamton, N. Y.
